SOHU.COM REPORTS THIRD QUARTER 2020 UNAUDITED FINANCIAL RESULTS

BEIJING, November 16, 2020 – Sohu.com Limited (NASDAQ: SOHU), China's leading online media, video, search and gaming business group, today reported unaudited financial results for the third quarter ended September 30, 2020.

Third Quarter Highlights

As previously announced, on September 29, 2020, the Company's subsidiary Sogou Inc. ("Sogou") entered into a definitive Agreement and Plan of Merger (the "Sogou Merger Agreement") with THL A21 Limited, TitanSupernova Limited ("Parent"), and Tencent Mobility Limited, each of which is a direct or indirect wholly-owned subsidiary of Tencent, which contemplates that Parent will be merged with and into Sogou in an all-cash transaction (the "Sogou Merger"), and Sogou will become a wholly-owned indirect subsidiary of Tencent. As also previously announced, on September 29, 2020, the Company entered into a Share Purchase Agreement with Parent (the "Share Purchase Agreement"), pursuant to which the Company's wholly-owned subsidiary Sohu.com (Search) Limited ("Sohu Search") agreed to sell all of the Sogou Class A ordinary shares and Sogou Class B ordinary shares owned by it to Parent (the "Share Purchase"), shortly before the effectiveness of the Sogou Merger, at a purchase price of US\$9.00 per share, which is equal to the per-share consideration under the Sogou Merger Agreement. In view of the Share Purchase Agreement, the results of operations for Sogou have been excluded from the Company's results from continuing operations in the Company's condensed consolidated statements of operations for the third quarter and are presented in separate line items as discontinued operations. Retrospective adjustments to the historical statements have been made in order to provide a consistent basis of comparison. Unless indicated otherwise, results presented in this release are related to continuing operations only.

- Total revenues were US\$158 million, down 6% year-over-year and 1% quarter-over-quarter.
- Brand advertising revenues were US\$41 million, down 11% year-over-year and up 8% quarter-over-quarter.
- Online game revenues were US\$101 million, down 6% year-over-year and 4% quarter-over-quarter.
- GAAP net loss from continuing operations attributable to Sohu.com Limited was US\$15 million, compared with a net loss of US\$33 million in the third quarter of 2019 and a net loss of US\$77 million in the second quarter of 2020.
- Non-GAAP net loss from continuing operations attributable to Sohu.com Limited was US\$7 million, compared with a net loss of US\$30 million in the third quarter of 2019 and a net loss of US\$75 million in the second quarter of 2020.

Dr. Charles Zhang, Chairman and CEO of Sohu.com Limited, commented, "In the third quarter of 2020, to further consolidate our core competitiveness and credibility, we continued to optimize our products, refine our technology, enhance the quality of premium content, and improve its distribution. At the same time, we kept exploring creative new and differentiated monetization opportunities. Benefiting from our more mature and sophisticated Sohu Video App and its advanced live broadcasting technology, we successfully hosted several innovative content marketing campaigns that could leverage the broad reach of our product portfolio. We saw positive feedback in terms of user interaction and from advertisers. For this quarter, despite the current challenging macroeconomic environment, our brand advertising revenue reached the high end of our prior guidance and achieved 8% quarter-over-quarter growth. Changyou's online games performed well for the third quarter of 2020, with revenue exceeding the high end of our prior guidance."

Third Quarter Financial Results

Revenues

Total revenues for the third quarter of 2020 were US\$158 million, down 6% year-over-year and 1% quarter-over-quarter.

Brand advertising revenues for the third quarter of 2020 totaled US\$41 million, down 11% year-over-year and up 8% quarter-over-quarter. The year-over-year decrease was mainly due to the continuous negative impact of the COVID-19 outbreak. The quarter-over-quarter increase was mainly due to increased revenues in the portal and video advertising businesses resulting from continuing efforts to boost revenues.

Online game revenues for the third quarter of 2020 were US\$101 million, down 6% year-over-year and 4% quarter-over-quarter. The year-over-year decrease was mainly due to the natural decline in revenue of Legacy TLBB Mobile and TLBB Honor.

Gross Margin

Both GAAP and non-GAAP¹ gross margin was 66% for the third quarter of 2020, compared with 63% in the third quarter of 2019 and 67% in the second quarter of 2020.

Both GAAP and non-GAAP gross margin for the brand advertising business in the third quarter of 2020 was 31%, compared with 31% in the third quarter of 2019 and 40% in the second quarter of 2020. The quarter-over-quarter margin decrease was mainly due to increased video content cost as a result of resumption of original content shooting with the easing of restrictions related to COVID-19 in China.

GAAP gross margin for online games in the third quarter of 2020 was 80%, compared with 78% in the third quarter of 2019 and 77% in the second quarter of 2020. Non-GAAP gross margin for online games in the third quarter of 2020 was 80%, compared with 78% in the third quarter of 2019 and 78% in the second quarter of 2020.

Operating Expenses

For the third quarter of 2020, GAAP operating expenses totaled US\$115 million, down 7% year-over-year and up 9% quarter-over-quarter. Non-GAAP operating expenses were US\$109 million, down 11% year-over-year and up 8% quarter-over-quarter. The change in operating expenses was mainly due to changes in marketing expenses.

Operating Profit/(Loss)

GAAP operating loss for the third quarter of 2020 was US\$11 million, compared with an operating loss of US\$17 million in the third quarter of 2019 and an operating profit of US\$1 million in the second quarter of 2020.

Non-GAAP operating loss for the third quarter of 2020 was US\$5 million, compared with an operating loss of US\$17 million in the third quarter of 2019 and an operating profit of US\$5 million in the second quarter of 2020.

Income Tax Expense

GAAP income tax expense was US\$11 million for the third quarter of 2020, compared with income tax expense of US\$15 million in the third quarter of 2019 and income tax expense of US\$86 million in the second quarter of 2020. Non-GAAP income tax expense was US\$10 million for the third quarter of 2020, compared with income tax expense of US\$12 million in the third quarter of 2019 and income tax expense of US\$83 million in the second quarter of 2020. For the second quarter of 2020, Changyou recognized an additional accrual of withholding income tax of US\$88 million, as Changyou changed its policy for its PRC subsidiaries with respect to distribution of cash dividends after the completion of the privatization of Changyou.

Net Loss

GAAP net loss from continuing operations attributable to Sohu.com Limited for the third quarter of 2020 was US\$15 million, or a net loss of US\$0.39 per fully-diluted ADS, compared with a net loss of US\$33 million in the third quarter of 2019 and a net loss of US\$77 million in the second quarter of 2020.

Non-GAAP net loss from continuing operations attributable to Sohu.com Limited for the third quarter of 2020 was US\$7 million, or a net loss of US\$0.17 per fully-diluted ADS, compared with a net loss of US\$30 million in the third quarter of 2019 and a net loss of US\$75 million in the second quarter of 2020.

Liquidity

As of September 30, 2020, cash and cash equivalents and short-term investments were US\$192 million.

Non-GAAP results exclude share-based compensation expense; non-cash tax benefits from excess tax deductions related to share-based awards; changes in fair value recognized in the Company's consolidated statements of operations with respect to equity investments with readily determinable fair values; impairment charge recognized for investments unrelated to the Company's core businesses; income/expense from the adjustment of contingent consideration previously recorded for acquisitions; and interest accrued in relation to the previously unrecognized tax benefit. Explanation of the Company's non-GAAP financial measures and related reconciliations to GAAP financial measures are included in the accompanying "Non-GAAP Disclosure" and "Reconciliations of Non-GAAP Results of Operation Measures to the Nearest Comparable GAAP Measures."

Supplementary Information for Changyou Results

Third Quarter 2020 Operational Results

- For PC games, total average monthly active accounts² were 2.0 million, a decrease of 5% year-over-year and an increase of 5% quarter-over-quarter. Total quarterly aggregate active paying accounts³ were 1.0 million, flat year-over-year and an increase of 11% quarter-over-quarter. The quarter-over-quarter increase was mainly due to improved performance of some of Changyou's older games, including TLBB PC, as a result of promotional activities.
- For mobile games, total average monthly active accounts were 3.8 million, an increase of 9% year-over-year and 23% quarter-over-quarter. The year-over-year and quarter-over-quarter increases were mainly due to the launch of Illusion Connect in South Korea in the third quarter of 2020. Total quarterly aggregate active paying accounts were 0.6 million, a decrease of 45% year-over-year and flat quarter-over-quarter. The year-over-year decrease reflected the natural declining life cycles of Changyou's older games, including Legacy TLBB Mobile and TLBB Honor.

Recent Developments

On September 29, 2020, Sogou entered into the Sogou Merger Agreement, and the Company and Sohu Search entered into the Share Purchase Agreement. The closing of the Share Purchase under the Share Purchase Agreement is expected to take place shortly prior to the completion of the Sogou Merger. If completed, the Share Purchase and the Sogou Merger will result in Sogou becoming a privately-held indirect wholly-owned subsidiary of Tencent, Sohu Search will receive aggregate consideration in the Share Purchase of approximately US\$1.18 billion in cash, and Sohu will no longer have any beneficial ownership interest in Sogou.

Business Outlook

For the fourth quarter of 2020, Sohu estimates:

- Online game revenues to be between US\$140 million and US\$150 million; this implies an annual increase of 6% to 14% and a sequential increase of 38% to 48%.
- Non-GAAP net income from continuing operations attributable to Sohu.com Limited to be between US\$15 million and US\$25 million;
 and GAAP net income from continuing operations attributable to Sohu.com Limited to be between US\$10 million and US\$20 million.

² Monthly active accounts refers to the number of registered accounts that are logged in to these games at least once during the month.

³ Quarterly aggregate active paying accounts refers to the number of accounts from which game points are utilized at least once during the quarter.

For the fourth quarter 2020 guidance, the Company has adopted a presumed exchange rate of RMB6.74=US\$1.00, as compared with the actual exchange rate of approximately RMB7.03=US\$1.00 for the fourth quarter of 2019, and RMB6.92=US\$1.00 for the third quarter of 2020.

This forecast reflects Sohu's management's current and preliminary view, which is subject to substantial uncertainty, particularly in view of the potential ongoing impact of the worldwide COVID-19 pandemic, which remains difficult to predict.

Non-GAAP Disclosure

To supplement the unaudited consolidated financial statements presented in accordance with accounting principles generally accepted in the United States of America ("GAAP"), Sohu's management uses non-GAAP measures of gross profit, operating profit, net income, net income attributable to Sohu.com Limited and diluted net income attributable to Sohu.com Limited per ADS, which are adjusted from results based on GAAP to exclude the impact of the share-based awards, which consist mainly of share-based compensation expenses and non-cash tax benefits from excess tax deductions related to share-based awards; changes in fair value recognized in the Company's consolidated statements of operations with respect to equity investments with readily determinable fair values; impairment charge recognized for investments unrelated to the Company's core businesses; income/expense from the adjustment of contingent consideration previously recorded for acquisitions; and interest expense recognized in connection with the Toll Charge. These measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for, or superior to, GAAP results.

Sohu's management believes excluding share-based compensation expense, changes in fair value recognized in the Company's consolidated statements of operations with respect to equity investments with readily determinable fair values; impairment charge recognized for investments unrelated to the Company's core businesses; non-cash tax benefits from excess tax deductions related to share-based awards; income/expense from the adjustment of contingent consideration previously recorded for acquisitions; and income tax expense, income tax benefit, uncertain tax position, and interest recognized in relation to the Toll Charge from its non-GAAP financial measure is useful for itself and investors. Further, the impact of share-based compensation expense and changes in fair value recognized in the Company's consolidated statements of operations with respect to equity investments with readily determinable fair values; impairment charge recognized for investments unrelated to the Company's core businesses; non-cash tax benefits from excess tax deductions related to share-based awards; income/expense from the adjustment of contingent consideration previously recorded for acquisitions; and interest expense recognized in connection with the Toll Charge cannot be anticipated by management and business line leaders and these expenses were not built into the annual budgets and quarterly forecasts that have been the basis for information Sohu provides to analysts and investors as guidance for future operating performance. As the impact of share-based compensation expense and changes in fair value recognized in the Company's consolidated statements of operations with respect to equity investments with readily determinable fair values, impairment charge recognized for investments unrelated to the Company's core businesses, non-cash tax benefits from excess tax deductions related to share-based awards, and income/expense from the adjustment of contingent consideration previously recorded for acquisitions does not involve subsequent cash outflow or is reflected in the cash flows at the equity transaction level, Sohu does not factor this impact in when evaluating and approving expenditures or when determining the allocation of its resources to its business segments. As a result, in general, the monthly financial results for internal reporting and any performance measures for commissions and bonuses are based on non-GAAP financial measures that exclude share-based compensation expense and changes in fair value recognized in the Company's consolidated statements of operations with respect to equity investments with readily determinable fair values, impairment charge recognized for investments unrelated to the Company's core businesses, non-cash tax benefits from excess tax deductions related to share-based awards, and income/expense from the adjustment of contingent consideration previously recorded for acquisitions, and also excluded the interest expense recognized in connection with the Toll Charge.

The non-GAAP financial measures are provided to enhance investors' overall understanding of Sohu's current financial performance and prospects for the future. A limitation of using non-GAAP gross profit, operating profit, net income, net income attributable to Sohu.com Limited and diluted net income attributable to Sohu.com Limited per ADS, excluding share-based compensation expense, non-cash tax benefits from excess tax deductions related to share-based awards, and income/expense from the adjustment of contingent consideration previously recorded for acquisitions, is that the impact of share-based awards and non-cash tax benefits from excess tax deductions related to share-based awards has been and will continue to be a significant recurring expense in Sohu's business for the foreseeable future, and income/expense from the adjustment of contingent consideration previously recorded for acquisitions may recur in the future. In order to mitigate these limitations Sohu has provided specific information regarding the GAAP amounts excluded from each non-GAAP measure. The accompanying tables include details on the reconciliation between the GAAP financial measures that are most directly comparable to the non-GAAP financial measures that have been presented.

Notes to Financial Information

Financial information in this press release other than the information indicated as being non-GAAP is derived from Sohu's unaudited financial statements prepared in accordance with GAAP.
